Professional Summary

Computer Science Engineering student with hands-on experience in Java, Spring Boot, REST APIs, MySQL, React, and AI-powered application development. Developed full-stack applications and an Ollama-based pseudocode-to-code generation platform. Strong foundation in Object-Oriented Programming, Data Structures, Algorithms, and DBMS.

Education

Vel Tech Rangarajan Dr. Sagunthala Institute of Science and Technology, Chennai **2023–2027**
B.Tech – Computer Science Engineering CGPA: 8.29/10

Sri Nidhi Junior College, Tiruvuru **2021–2023**
Intermediate – MPC Score: 86.5%

Technical Skills

Programming Languages: Java
Frameworks: Spring Boot, React, Node.js, Express.js
Web Technologies: HTML5, CSS3, REST APIs
Database: MySQL
AI Technologies: Ollama, Large Language Models (LLMs)
Core CS: Data Structures, Algorithms, OOP, DBMS, Operating Systems
Tools: Git, GitHub, Maven, Eclipse, VS Code, Postman

Projects

AlgoWeave AI – Pseudocode-to-Code Generation and Program Analysis **GitHub**
Java, Spring Boot, React, MySQL, Ollama, JWT

- Developed an AI-powered platform that converts problem descriptions and pseudocode into code in multiple programming languages.
- Integrated Ollama with Spring Boot REST APIs for code generation and analysis, including explanations, dry runs, time and space complexity, and edge cases.
- Implemented JWT authentication, MySQL persistence, generation history, and a React frontend for code generation and analysis.

Inventra – Inventory Management System **GitHub**
Node.js, Express.js, MySQL, HTML, CSS, JavaScript

- Developed an inventory management application with a dashboard for products, suppliers, stock levels, and sales.
- Implemented CRUD operations, multi-item cart checkout, discounts, sales history, and transactional stock updates using Node.js, Express.js, and MySQL.
- Built an installable Progressive Web App with offline app-shell support and dashboard insights for low-stock items and daily sales.

Certifications

- Artificial Intelligence Certificate – Infosys Springboard
- Node.js Case Study – Movie Application using Node.js and MongoDB

Achievements

- Achieved 97.9% (58.75/60) in the Java Development Assessment Test conducted through Infotact Solutions and Qwik Test.
- Solved 100+ Data Structures and Algorithms problems on LeetCode.
